Forever New Frontiers

[ About all it needs for ground support is ground. ]

Before the C-17 Globemaster III, major airlift missions meant first establishing major ground support operations. That took time, manpower and machinery, all in short supply in time of crisis. But the C-17 changed that forever. With its unique design and unmatched flexibility, the C-17 can load and unload payloads up to 160,000 lbs. in under thirty minutes, with minimum crew and logistics support. Which means more airlift missions get off the ground, instead of being stuck on it.
